

Dear Families:

You have been selected to line the fields in preparation for upcoming Saturday games. During the course of the season, parents are selected to help with this very important task, and we expect that everyone chosen will fulfill this obligation to the best of their ability.

Should you find yourself unable to complete your assignment, you are responsible for finding another parent to complete it for you.

Field Lining is to be completed Friday afternoon or evening prior to Saturday. In the event of rain, fields may be completed Saturday mornings after 8:00am.

Instructions - On the day of your assignment, proceed to the shed. The shed at Rockefeller Lane fields will be open by 3 in the afternoon for access to the lining machines. Take out a lining machine and 3-4 cans of lining paint to your designated field. **Shake your paint can very well**, and place it in the machine. Use existing lines as your guide. In the event that your paint can malfunctions, remove the can and clear out any clogs on both the can and the machine, then replace it back in the machine.

Please take care with these machines, as they are easily broken if handled roughly. Once you have completed your field lining, return the machine to the shed, collect all empty paint cans and place them upside in the boxes in the shed, and you’re done! Don’t lock the shed, as you may prevent others from gaining access.

Field lining should not take any more than 10-20 minutes depending on the size of the field that you are assigned. We suggest you check with your team parent for names and numbers of other parents on your team. We understand that this will require a bit of planning on your part, but it is critical to distributing the workload of running our club more equitably among all of the parents.

Thank you in advance for your help in making Red Hook Soccer Club a great place for all of our children to learn and play soccer.
